

Stack Overflow Developer Survey 2019

Justin Cash

10/31/2024

OUTLINE

- Executive Summary
- Introduction
- Methodology
- Results
 - Visualization – Charts
 - Dashboard
- Discussion
 - Findings & Implications
- Conclusion
- Appendix

EXECUTIVE SUMMARY

- Data Conceptualization and Analysis Goals
- Methodology Description
 - Data Gathering
 - Data Analysis
 - Data Visualization
- Results Presentation supported with Visualization and Trends.
- Discussion of overall findings and implications regarding the results previously exposed.
- Final Conclusions of the carried out research.

INTRODUCTION

- Stack Overflow's Annual Developer Survey is the largest and most comprehensive survey of people who code around the world.
- Results don't represent everyone in the developer community evenly.
- The Survey consists of nearly 90,000 developers
- This report highlights trends to predict where developers are going
- And a characterization of developers around the globe.

METHODOLOGY

- Collect survey data and explore its content
 - Web Scraping
 - APIs
 - Requests Library
- Data Wrangling
- Exploratory Data Analysis
 - Analyzing data distribution
 - Handling outliers
 - Correlations
- Data Visualization

Highlight the distribution of data, relationships, composition and comparison of data.
- Dashboards

RESULTS

PROGRAMMING LANGUAGE TRENDS

Top 5 Programming Language Experience

Top 5 Desired Language to Learn

PROGRAMMING LANGUAGE TRENDS - FINDINGS & IMPLICATIONS

Findings

- Javascript seems to be the leading language.
- Python is the fastest growing.
- There is great interest in Typescript.

Implications

- Possible developer migration from Javascript to Typescript.

DATABASE TRENDS

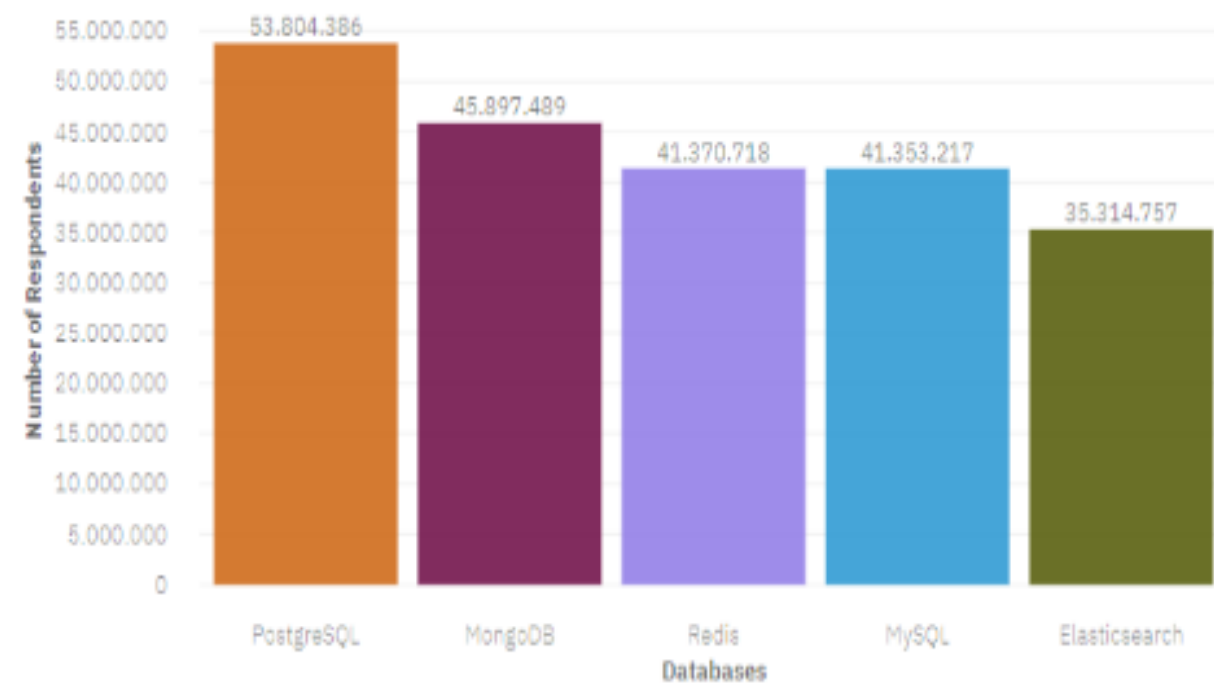

Current Year

Top 5 Databases Worked with

Next Year

Top 5 Desired Database to Learn

DATABASE TRENDS - FINDINGS & IMPLICATIONS

Findings

- MySQL is the most used Database.
- Lack of interest in Microsoft SQL Server and SQLite.
- Increasing interest in PostgreSQL and MongoDB.

Implications

- Microsoft SQL Server and SQLite losing ground in the market.
- PostgreSQL and MongoDB gaining in popularity.

Respondent Count by Gender and EdLevel

DISCUSSION

OVERALL FINDINGS & IMPLICATIONS

Findings

- Javascript widely used and Typescript gaining in popularity.
- Over 90% of developers are young males.
- Most developers live in developed countries.

Implications

- Javascript and Typescript are popular and gaining traction.
- Global polarization of developers location and gender.
- Young developers with out postgrad studies are the majority.

CONCLUSION

- Developers are people with very marked characteristics.
- A solid understanding of current and future technology trends can be obtained
- There are a lot of opportunities to spread the profession globally and be more inclusive to women,
